

## Exam System Respondus LockDown Browser

Respondus LockDown Browser is a special browser that is integrated with KHAS Learn. When students use Respondus LockDown Browser, they cannot print or copy the page opened in the browser, or access another link. When the exam starts, a student cannot turn off the screen until the end of the exam.

You can follow the steps below to enter the exam with Lock Down Browser.

Step 1: To download Respondus LockDown Browser, first click the link below.

<https://download.respondus.com/lockdown/download.php?id=197240621>

Step 2: You can start the downloading process by clicking the "Install Now" button on the right side of the LockDown Browser download page that opens.

This brief video explains the basic features of LockDown Browser and why it's used at your institution.

#### VERSION

Version: 2.0.6.06  
Your system: Windows 10  
Download size: 71.8 MB  
[System requirements](#)

[Do you need the Mac version?](#)

#### INSTALL

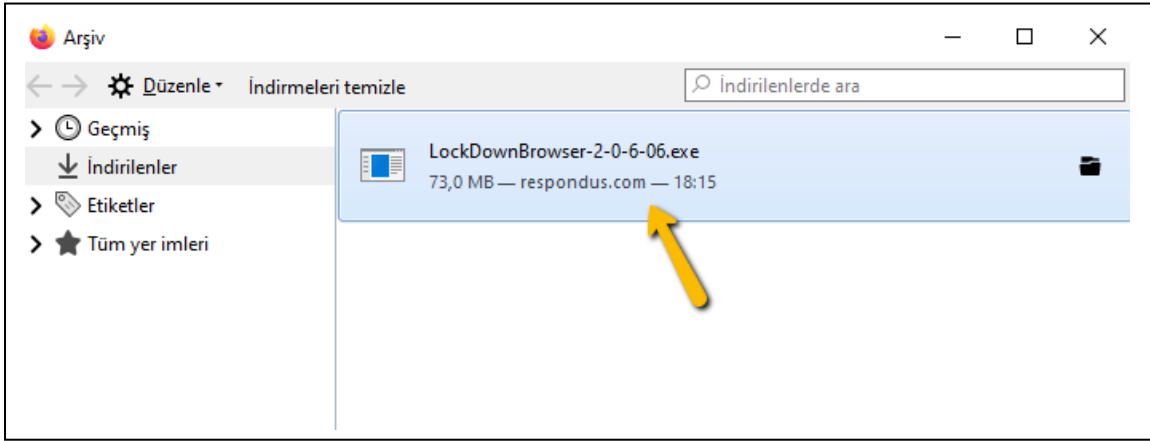

Install LockDown Browser for:  
**Kadir Has University**

**INSTALL NOW**

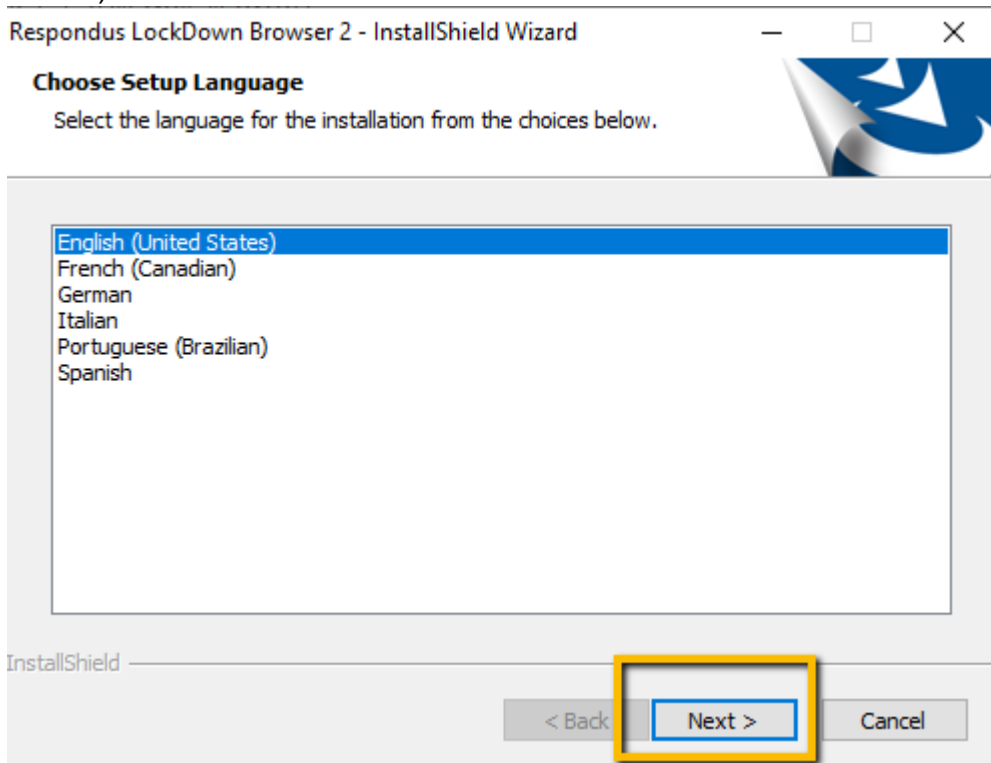

Note: Your antivirus software must allow you to install software.

By clicking the "Install Now" button, you acknowledge that you have read and agree to the [Respondus Inc. License Agreement](#)

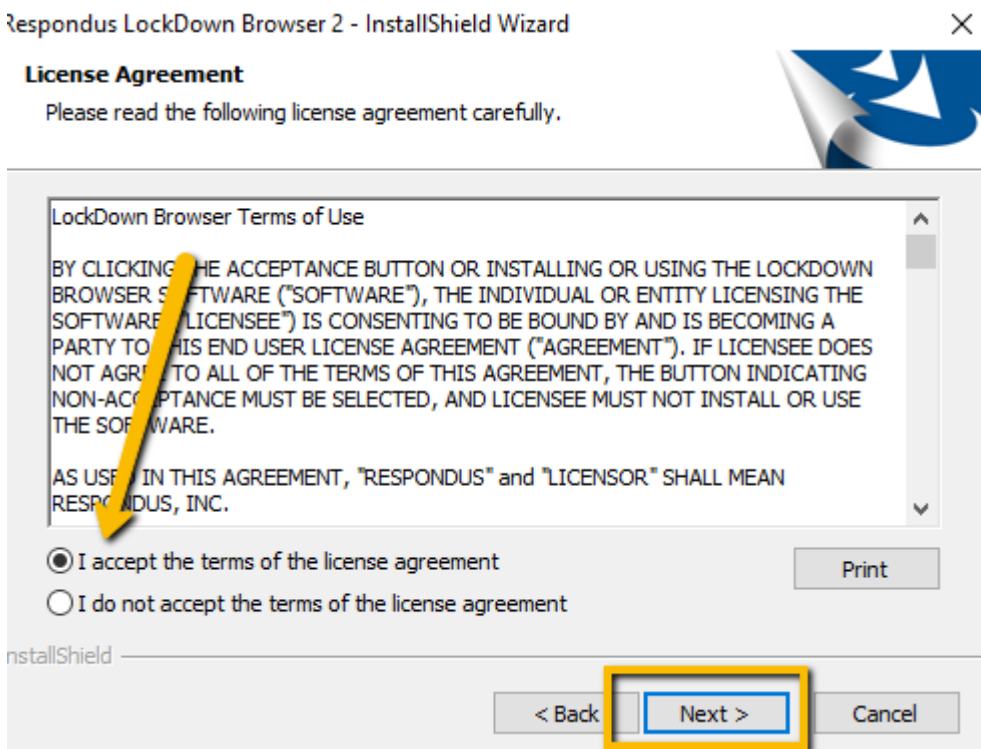

**Step 3:** After the Respondus LockDown Browser program is downloaded to your computer, open the folder where you saved it on your computer and double click.

**Step 4:** After the program has started to be installed, the first step is to select English (United States) and click the next button.

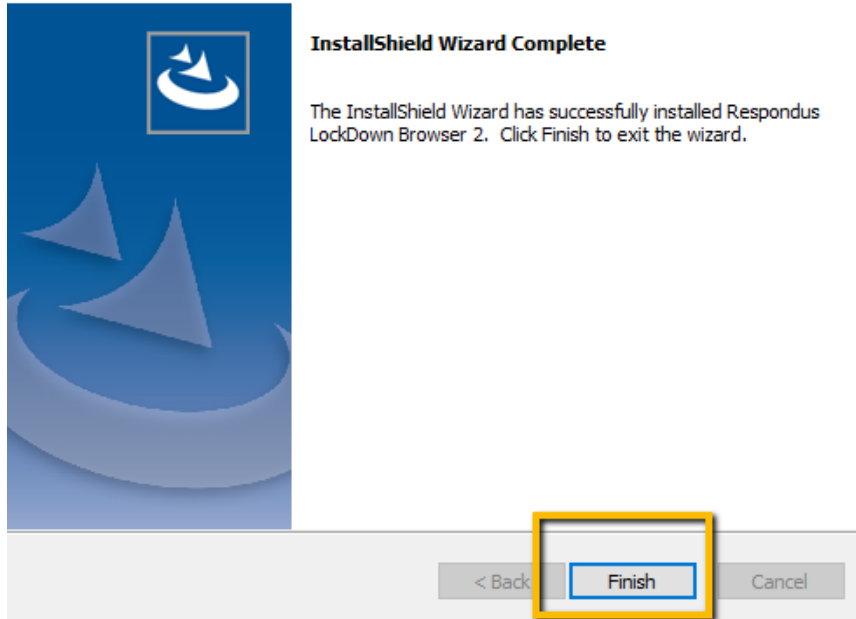

**Step 5:** Select "I Accept the terms of the license agreement" option on the screen that appears and click the Next button.

Step 6: The program installation will be completed and finally click the Finish button.
